

# Can changes in market technology have a positive impact on the eurobond market ?

Simon Fasdal, Head of Fixed Income Saxo Bank

**SAXO**  
**MARKETS**

# Markets will transform in 2018

- Bond markets will see tighter spreads and commission based models, due to transparency regulations and cost of capital.
- The sum of all regulations, new technology and new agile business models will transform bond markets dramatically.
- Most traditional bank models are not prepared for impact at all.

# Technology will open the bondmarket

Tier 1 banks and  
pension funds

Multidealer  
competition

Digital global access

Electronic Trading

120+ technology  
providers

## Price improvement compared to limit price (EM & Corp bonds)

## Execution time (Govt)

# All markets become equal

- Same easy online access
- Multi currency
- Lower transaction cost
- Trade whenever markets are open
- Traders and investors become global and multi asset
- Diversification becomes more essential for both institutional and private investors
- All to all creates deeper liquidity and activity
- Eurobond market will benefit from digitalisation
