In underwriting process ARARATBANK acts as a intermediary between the issuing company and the investing public to help issuing company sell its securities.

The following types of underwriting are available:

- **Firm Commitment:** The underwriter guarantees the underwriting of total volume of issued securities in the primary market.
- **Best Efforts Agreement:** The underwriter does not guarantee underwriting of issued securities in the primary market however it puts all its efforts to underwrite the whole volume of issued securities in the primary market.

Brokerage Services

ARARATBANK offers brokerage services in domestic and foreign financial markets to its customers

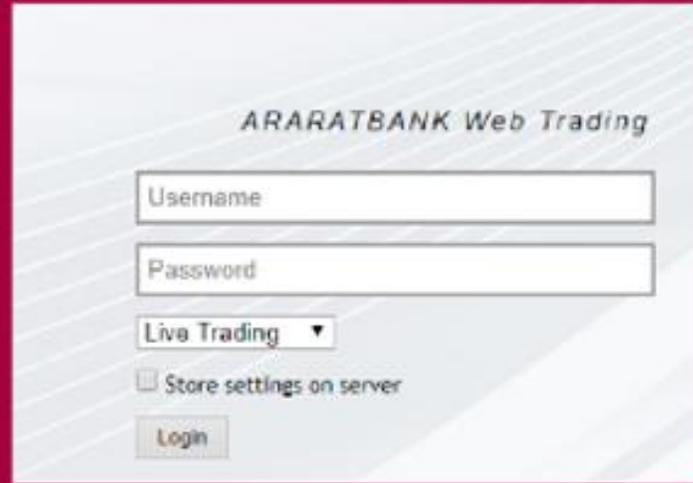

Brokerage services advantages are:

- ✓ **Low commissions and fees**
- ✓ **Access to financial information**

ARARATBANK offers investment baskets as an alternative to bank deposits. Investment basket includes domestic corporate bonds with different yield and maturity.

✓ Its weighted average yield exceeds bank deposit interest rate by at least 0.5%

✓ Customer has a buyback opportunity at an initial invested amount of money

✓ Better overdraft terms with underlying corporate bond pledge

Investments in the RA Government Bonds

ARARATBANK acts as an agent in the market of RA Government bonds.

Government bonds are issued by the Ministry of Finance on behalf of the Republic of Armenia and are secured by the entire property of the state.

RA government bonds are the only bonds in Armenian securities market that are not taxed by an income tax.

ARARATBANK is active both in the primary and in the secondary bonds markets and carries out operations for its customers.

ARARATBANK OJSC provides the following services:

- **Opening and processing of customers' securities accounts,**
- **Registry keeping of customer's rights on securities,**
- **Providing statements to customers on the registry keeping,**
- **Performing nominee's functions for customers,**
- **Providing customers with complete information on securities received from the issuers, Depository and other participants of the securities market,**
- **Providing the issuers and Depository with the information received from the customers.**
